POST CARD

Dear Friend: Thanks for your card. I hope you don't have one like this. It has been cold here. Had frost and a little ice the 19th. Don't usually have much frost here till the last of Oct. It froze hard enough to kill part of my garden. Froze here twice in May too, which is unusual so you see we've had a short season & it caught my garden at both ends of the season.
